I told a lie and she got mad
Am G

C G
I never ever saw the stars so bright
Am F
I never really heard of cluster flies
C G
Never ever saw the northern lights
Am F
In the farmhouse things will be alright

I never ever saw the stars so bright
I never really heard of cluster flies
Never ever saw the northern lights
In the farmhouse things will be alright

Woke this morning to a stinging laugh
Every man rise from the ash
Each betrayal begins with trust
Every man returns to dust

I never ever saw the stars so bright
I never really heard of cluster flies
Never ever saw the northern lights
In the farmhouse things will be alright

I never ever saw the stars so bright
I never really heard of cluster flies
Never ever saw the northern lights
In the farmhouse things will be alright
